

IT'S THE RULE SHOTS BEFORE SCHOOL

Ready for 7th Grade?

The whooping cough and meningitis vaccines are required for all 7th graders. Make sure your child is ready to start school next fall. **Talk with your doctor today.**

IDAHO LAW REQUIRES all incoming 7th grade students to have proof of an adolescent whooping cough booster shot ("Idap") and a meningococcal shot, or file an exemption, **in order to attend school in the fall.**

REMEMBER, in addition to the 7th grade shots, there are several important vaccines recommended for preteens and teens including varicella (if they never had chickenpox disease), hepatitis A, the HPV vaccine series, and a seasonal flu vaccine. **Talk to your doctor for more information.**
